**“Fulfilling
Aspiration of Every
Stakeholders”**

Vision and Mission Statements

Our Vision:

To be the preferred General construction, Building Maintenance & Renovation including MEP and Project support services contractor in the Kingdom of Saudi Arabia, by performing projects to the highest level of quality at fair and market competitive prices.

Our Mission:

To deliver safe, quality, timely and cost-effective services. Continuously improve organizational capabilities. Satisfy stakeholder's expectation, as we see every client as a partner in the construction process and are aware that our success depends on the total satisfaction of each and every one.

CSR Statement

Our Corporate Social Responsibility (CSR) statement:

ETHICS

The Corporate Business Ethics Office operates as an independent and objective body that coordinates reviews and evaluates business ethics compliance issues and concerns within the company. It establishes expectations of the highest ethical standards, creates employee awareness of the standards and drives commitment to meeting the standards.

The Corporate Business Ethics Office is looking to appoint a Business Ethics Representative to work as staff expert helping to enhance and deploy the company's Ethics & Business Conduct program and to reinforce the company's ongoing commitment to doing business to the highest ethical standards for employees, contractors/suppliers, joint venture partners and other stakeholders. The representative will provide program direction and consultative services to management and function under very limited direction and supervision. The position requires an expert knowledge of world-class ethics and business conduct systems, procedures and tools.

Our Corporate Social Responsibility (CSR) statement:

HONESTY & INTEGRITY

We do business honestly and equitably. Integrity and the implementation of a high ethical standard of conduct are fundamental to the company when dealing with clients, architects, suppliers and each other.

TOTAL RELIABILITY

We endeavor to be the best in our industry, and achieve this by solving clients' problems and meeting their needs through exceptional performance, with total reliability.

ENCOURAGING PERSONAL GROWTH

We encourage individual employee growth through training and career development opportunities. We reward growth by offering promotion from within the company

Introduction

Introduction

It is our great pleasure to introduce Metro Co. Ltd an ISO 9001:2015 and 45001:2018 certified and 100% Saudi owned company, having it's head office located at Al-Khobar, KSA. We are specialized contractor for undertaking and executing all kind of General construction, Building Maintenance & Renovation including MEP and Project support services.

The company's key strength are its varied experience, rich knowledge of local conditions, high standards of health, safety, quality & environment, its ability to manage operations in diverse industries, long term relationships with world class clients and ability to mobilize financial resources.

We owe our steady growth and success to our faithfulness to our company philosophy of sustained personal and professional integrity; to our steadfast commitment to excellence and client satisfaction; and to the dedication and quality of our people, the most valuable of our assets.

Introduction

Our reliability and consistency have rewarded us with repeat and long-term business relations, associations, and partnerships with clients, developers, general contractors, subcontractors, government agencies, and peer companies on local, regional, and international levels.

While adhering fully to our original founding values of quality, trust, diversity, and integration, we keep evolving and unfailingly rise to the challenges of change. And while we conduct our business to the highest and latest international standards and best practices, we are particularly mindful of the environment and its protection and are especially proud of our long-standing record of safety that is unrivalled in the Kingdom and in many parts of the region.

We are quality company built by quality people. Our people have always been the source of our strength. In addition to training and professional development, we're particularly proud of our long-standing record of safety, as we always empower our workforce to seize the responsibility for customer satisfaction, and grow personally and professionally.

Policy Statements

HEALTH, SAFETY AND ENVIRONMENT (HSE) POLICY

METRO CO. LTD. is committed to manage its business processes through continual improvement on HSE management system and to the fullest satisfaction of its clients, contractors, interested parties and organization.

It is our policy to provide and maintain a safe and healthy working environment free of recognized hazards and to follow the operating practices in its all areas of operation (Construction, Building Maintenance & Renovation including MEP and Project Support Services) activities by ensuring the following:

- Abide by the current applicable Health, Safety & Environment legislation and legal requirements of the Kingdom of Saudi Arabia, including requirements of those interested parties.
- Adopt work practices that minimize risk to human life, property and the environment.
- Involve employees at all levels in managing health, safety and environmental risks.
- Minimize waste and promote the conservation of environmental resources.
- Initiate quick and effective response to incidents and emergencies resulting from our activities through cooperation and close coordination with Client counter-part and other involved agencies.
- Business processes will be aimed and focused to meet customer satisfaction and expectations by minimizing HSE risks to promote safe and green business culture.

Observance of this policy by all employees of the organization is necessary to accomplish an accident-free, environment friendly performance and sustain its business entities.

سياسة الصحة والسلامة والبيئة

تلتزم شركة مترو المحدودة بإدارة أعمالها الصناعية من خلال التحسين المستمر لنظام إدارة الصحة والسلامة والبيئة على أكمل وجه لتحقيق أقصى قدر من الرضى لعملائها والمقاولون، بالإضافة إلى الأطراف المعنية والمنظمات.

إن من سياسات شركتنا هو تأمين بيئة عمل آمنة وصحية خالية من المخاطر وذلك باتباع التدريبات الخاصة بالتشغيل في جميع مجالات عملها (كصيانة المباني والتجديد، التشييد، الأنشطة الميكانيكية الكهربائية والسباكة بما في ذلك خدمات الدعم) من خلال ضمان ما يلي:

- الالتزام بالمتطلبات القانونية واتباع التعليمات والارشادات المعمول بها في مجال الصحة والسلامة والبيئة المطبقة في المملكة العربية السعودية، بما في ذلك متطلبات الأطراف المعنية.
- اعتماد تدريبات لإنجاز الأعمال التي تقلل المخاطر على حياة البشر والممتلكات والبيئة.
- إشراك الموظفين بكافة المستويات في إدارة المخاطر الصحية والسلامة والبيئية.
- التقليل إلى أدنى حد من النفايات وتعزيز حفظ الموارد البيئية.
- البدء بالاستجابة السريعة وفعالة لمواجهة الحوادث والطوارئ الناجمة عن أنشطتنا من خلال التعاون والتنسيق الوثيق مع العميل والجهات المعنية الأخرى.
- تستهدف طرق أعمالنا التجارية وتركز على تلبية رضا العملاء وتوقعاتهم من خلال خفض مخاطر الصحة والسلامة والبيئة لتعزيز ثقافة الأعمال الآمنة والمحافظة على البيئة.

يعد الالتزام بهذه السياسة من قبل جميع منسوبي المنظمة أمراً ضرورياً لتحقيق أداء خالٍ من الحوادث وصديق للبيئة والحفاظ على كياناتها التجارية.

Quality Policy

Metro Co. Ltd. is committed to maintain consistent quality in delivering General Construction Projects, Building Maintenance & Renovations projects including MEP and Project Support Services, and always strive to meet or exceed customer's expectation. The quest for quality and continual improvement is an ongoing process at Metro Co. Ltd.

The Quality Policy & Management System is integrated and implemented through the active involvement of the entire organization in compliance with ISO 9001:2015 standard in its all areas of operation.

METRO Services

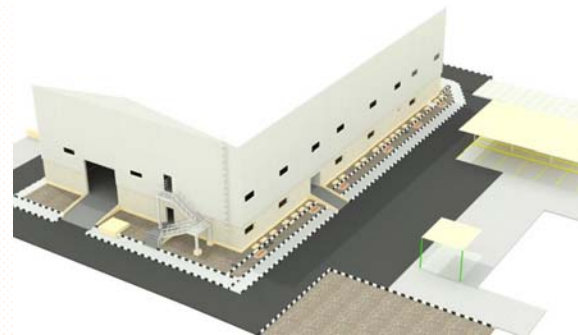

METRO Co. provide specialized services for all phases of Construction, Maintenance & Renovation projects, which shall include;

- ▶ General Construction
- ▶ Building Maintenance & Renovation including MEP
- ▶ Project Support services

Often tackling tight deadlines, budget constraints, and challenging site conditions, our professional staff continually improves management, technology, and financial systems to deliver the most appropriate and project-specific solutions.

Our General Construction scope include Construction of Industrial Buildings, Workshops, Pre-engineered buildings, Security gates & Fencing including Site Preliminary and temporary facilities work (TCF).

Workshop Building at Hail 2 Power Plant, SEC

400MW Solar Power Plant at Sakaka
Main Control Room Building **Security control building and gate**

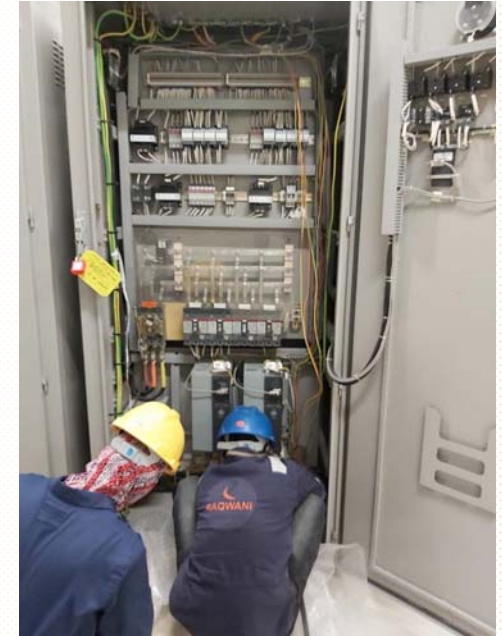

Our Building Maintenance & Renovation includes execution of various Building Renovation (GSO) projects through SFC, MFC, and Work Order or Release POs.

Main SOW is to perform Building trades, facilities, renovation and maintenance WORK activities which shall include but not limited to:

- Major Renovation, Alterations or modernization of Industrial buildings, Office facilities and other associated facilities in Central Community operation area
- Installation, testing and commissioning of all electrical and electronic systems
- Fire Alarm, Fire fighting sprinkler and Fire suppression systems
- HVAC systems and Ducting
- Security and Access control systems.
- Maintenance services for building, plant and other related utilities operation & maintenance and landscaping works.

Our MEP Construction works involve Supply, Installation, Testing and Commissioning of Plumbing System (Potable, Raw water), Sanitary sewer system (Storm and Drainage), Irrigation systems, Chilled water system, Fire water Systems, Compressed air systems, Vacuum systems, HVAC systems and Equipment installations.

➤ Mechanical/Piping Works

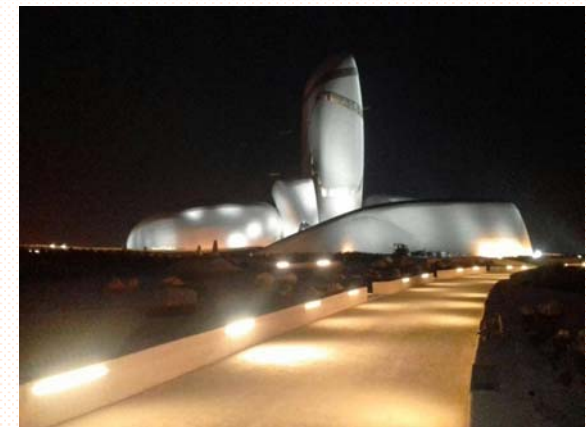

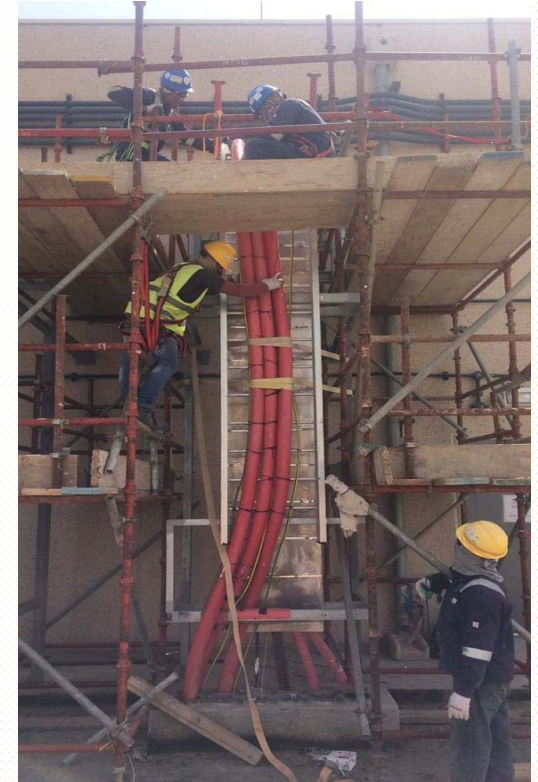

Our Mechanical/Piping Construction works involve Supply, Installation, Testing and Commissioning of Process piping network, Industrial piping installations including FRP/ RTR/ Carbon Steel/stainless steel pipeline, Plant piping systems, Power piping systems, Laboratory piping systems.

➤ Electrical Works

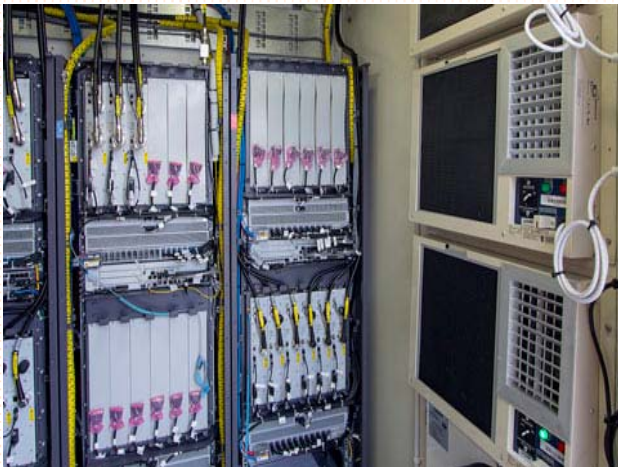

Our Electrical scope involve MV/LV Electrical Systems for Industrial buildings which shall include;

- Supply, Installation and testing & commissioning of electrical equipment's such as Transformers (Dry/Oil), Motor control center, switchboards, panelboards, generator and VFD's,
- Power and Lighting systems,
- Grounding systems,
- Lightning protection systems.

➤ Telecommunication Works

Our Telecommunication Construction Works involve Supply, Installation, Testing and Commissioning of Duct Banks and OSP cabling system networks including manholes, ISP systems, equipment racks and System back bone, Cable trays, Cable runways, Conduits, Wiring and pedestals, Installation and configuration of switches splice closure and devices, Telephony and IP systems, Fiber optic cables and systems.

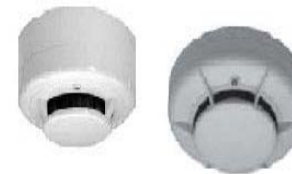

➤ Fire Alarm Systems

Our Fire Detection & Alarm Systems include supply, installation, testing & commissioning of both the conventional and addressable high Sensitivity Smoke Detection Systems, including Photo Electric Smoke Detection, Ionization Smoke Detection, Beam Detectors.

Heat Detection Systems include Fixed Temperature Heat Detection, Rising Temperature Heat Detection, Probe Type Heat Detection, Linear Heat Detection.

Conventional Type

Addressable Type

➤ Fire Fighting Systems

Our Firefighting system involve Supply, Installation, Testing & Commissioning which shall include;

- Fire Automatic Sprinkler System
- Fire Pumps and Fire Extinguishers
- Deluge and Pre-Action System
- Foam System
- CO2 Fire Suppression System
- Clean Agent & Wet Chemical Fire Suppression Systems include FM200, Novec 1230 Systems
- Fire Hose reel and Hydrant System

Our Project Support Services unit offers a wide array of services. These services include, but are not limited to, Material outsourcing and Rental services for various types of Equipments, including supply of top quality professionals such as Quality Control personnel, Safety professional, Certified Skilled and Permit Receivers to assist in meeting client needs.

Compliance with technical specs, fast delivery timing, competitive pricing conditions are our strong points in the strategic area of material outsourcing for all industrial and construction material requirements which shall include, but are not limited to, the following that are required by main contracting and operating companies in all industries:

- Mechanical & Plumping materials
- Electrical & Instrumentation materials
- Civil materials

General activities include removal and new installation of Civil/Architectural, HVAC, Electrical & Communication, Fire Alarm and fire protection systems, including testing and commissioning works.</p>	04-05-2021 To 31-07-2021	Completed	Ras Tanura	Abdulwahab M. Al Moallam Sons Co.
5.2	W.O.# 50083255	<p>Upgrading Existing Office Space First Floor Admin North Ras Tanura SOW includes removal of existing furniture's, metal framed metal panel and doors, wooden elevated (1 step) raised floor, acoustical ceiling tiles with grids, carpet tiles. Removal of all existing HVAC components including diffusers, rigid ducts and related items. Installation of new gypsum board wall, fire rated doors and frames, Acoustical ceiling tiles, Carpet tiles, aluminium thresholds and installation of new Acrovyn crash rails. Testing and commissioning, meggerring and operational test. Repaint / Patch-up existing gypsum board ceiling with paint finish.</p>	28-06-2019 to 28-10-2020	Completed	North Admin Office, Ras Tanura	Abdulwahab M. Al Moallam Sons Co.
5.3	W.O.# 70247719	<p>Proposed Shade Walkway Linking North Park Office Building, Dhahran SOW includes Saw-cut, demolish and remove concrete walkways, steps and ramp affected by the work. Miscellaneous work including modification of existing stainless-steel handrails and posts, valve boxes and proposed new walkway levels. Provision of new reinforced concrete slab on grade, reinforced concrete stair/steps and CMU retaining wall. Provision of new walkway shades, canopies and car parking shades. Type of Facility – shades at north park office building in Dhahran.</p>	13-05-2019 to 30-05-2020	Completed	North Park Buildings, Offices & Warehouse complex Midra, Dhahran	Abdulwahab M. Al Moallam Sons Co.
5.4	W.O.# 3000834396	<p>Renovation of Tanajib Toilets Removal & Installation of New Ceramic Floor & Wall Tiles. CMU Partitions between Cubicles. & Installation of Eastern & Western Water Closets Removal & Installation of Flush-O-Meter Valve, Corian Counter Top with Integral Bowls. LED Lighting Fixtures. and Faucets, Fittings and Accessories. Installation of new Floor Drains, Removal and installation of Gypsum Board Ceiling.</p>	21-05-2019 to 21-10-2019	Completed	Tanajib Support Facility, ITC 5400	Abdulwahab M. Al Moallam Sons Co.

SI	Contract Number	Brief Description of Scope of Work	Contract Dates	Status (Completed/ Ongoing)	Location (KSA Province & City)	Client
5.5	W.O.# 50080885	Fire Safety Upgrade for Building 132, Al-Munirah, Dhahran The scope includes upgradation of fire safety upgrade at complete Bldg# 132 Total Eight Floors and 254 Rooms. Major scope includes removal of existing doors, FCU enclosures, kitchen counter, range hood, metal duct, Roof ducts, roof mounted exhaust fans, recirculating pump and floor and wall tiles from 1st to 8th floor. Renovation works include toilets area with gypsum works and laying of wall and floor tiles and waterproofing at the roof. Supply and installation of new switch racks, panel boards with its conduits and wirings and installation new dry type transformers and testing and commissioning, connect and tapping of wall and roof mounted exhaust fans. Fire safety upgrade in the sub ducts and in the toilet shafts.	26-12-2019 to 31-12-2020	Completed	Al-Munirah Mid Rise Bldg. 132, Dhahran	Abdulwahab M. Al Moallam Sons Co.
5.6	W.O.# 70240488	Upgrade of Kitchen Hood Ventilation & Installation of Wet Chemical Fire Suppression System at Udhailiyah Golf Club House Supply and install SS kitchen hood with 2 exhaust duct and other related work, including supply and install 2 roof mounted fans; one for exhaust and one for fresh air supply as per required CFM. Supply and install Wet Chemical Fire Suppression System to kitchen hood including piping's, fittings, interlocking chemical with fire alarm system relay, fuel source shut down system and other related work.	30-12-2019 to 30-03-2020	Completed	Golf Club house, Udaliyah	Abdulwahab M. Al Moallam Sons Co.
5.7	W.O.# 70253919	Rectify Fire & Safety For Steineke Hall Bldg. #1640 Demolition of grade slab and pavements and removal of firewater pipes. And demolition of existing fire alarm panels, smoke detectors @ first to third floors. Installation of new PACU units and sand trap louvers and roof mounted exhaust fans. fabrication and install new HVAC ducting @ 3rd floor and installation of new transformers. Construction procurement, fabrication, installation, testing and commissioning of HVAC, fire alarm, and firefighting system for Steineke hall building 1640	12-06-2019 to 12-12-2020	Completed	Steineke Hall Building # 1640, Dhahran	Abdulwahab M. Al Moallam Sons Co.
5.8	W.O.# 50091607	Replacement of Fire Rated Doors & Walls at Atrium Area of ABQ. EAST Admin Bldg.# 1495, Abqaiq Scope of Work is to provide supervision, manpower, supply fire rated glass & doors materials and other required equipment and tools for replacing existing doors, walls and glass partition walls with one hour fire rated glass on aluminium frames, including supply and installation of fire smoke detectors.	25-07-2021 To 28-02-2022	Ongoing	Abqaiq	Abdulwahab M. Al Moallam Sons Co.
5.9	W.O.# 50092670	Renovation of Ceiling Work at Bldgs.# 5-276, 9-311, 1114, 991, 1140, 1495 & 927 in Abqaiq Scope of Work is to provide supervision, manpower, materials and other required equipment and tools for removal of existing ceiling tiles with new installation of new hangers rods and hook bolts, and replace the damaged existing Acoustic ceiling titles and aluminium runners with supports, fittings and accessories.	12-08-2021 To 13-02-2022	Completed	Abqaiq	Abdulwahab M. Al Moallam Sons Co.
5.10	W.O.# 50080646	Removal of Pre-Cast Concrete Canopies at Courtyard @ Central Admin. Building # 990 in Abqaiq Removal of Pre-Cast Concrete Canopies at Courtyard Central Admin Building Abqaiq. Demolish and removal of T-beam and L-beam and chip of all unsound or cracked concrete and restore of beam edges and install new Heat Film and shall trim all beams in first, second and third floor.	17-06-2019 to 21-10-2019	Completed	Courtyard @ Central Admin. Building #990 in Abqaiq	Abdulwahab M. Al Moallam Sons Co.
5.11	W.O.# 50082792	Replace 150 Meters CS Steel Pipe by RTR and Corroded Platform at Ras Tanura Booster Station Work includes replace existing 4", 6" 12" 18" and 24" CS pipe spool to RTR including valves. Construct pipe supports and testing. Disconnect pressure switch and install new stud bolts SS-316 with nuts and synthetic fiber gaskets and reinstall valves and pressure switch connection. Replace vents, pressure gauges, temperature gauges and installation of insulation between the pipes and paint all pipes.	17-09-2019 to 17-03-2020	Completed	Booster Station, Ras Tanura	Abdulwahab M. Al Moallam Sons Co.
5.12	W.O.# 50082548	Replace Four (4) Old and Fire Hydrants Around Bldg. # 2280 Dhahran The proposed replacement of corroded and substandard fire hydrants around Bldg#2280. Removal of obstruction around fire hydrants, isolation valves Replacing of Four (4) Old and Fire Hydrants with its piping and accessories @ various places., Installation of 6" dia CS pipes and new spools and perform cathodic protection, testing and commissioning and tagging.	17-09-2018 to 20-03-2020	Completed	RT Community, Bldg. # 2280, Dhahran	Abdulwahab M. Al Moallam Sons Co.

SI	Contract Number	Brief Description of Scope of Work	Contract Dates	Status (Completed/Ongoing)	Location (KSA Province & City)	Client
5.13	W.O.# 50082314	<p>Restoration of Greenbelt Irrigation System, RSTP, Abqaiq Main SOW is to upgrade of existing 2 units Madinat Abqaiq Irrigation Pump (MAIP) at RSTP, Demolition works: Demolish old irrigation pumps, pipe supports and accessories, existing concrete foundations and disconnect electrical power supply. Construction Works: Construction of new concrete foundation to match the new pump assembly foot print. Installation of pipes and fittings to reconnect new irrigation pump to the existing and suction and discharge line piping. Expand the existing Valve box to 16 inch greenbelt Irrigation source line. Installation of new 16-inch dia HDPE piping from the existing irrigation force main line to greenbelt irrigation network. Construction of new Valve box for Eco-Park Irrigation network tie-in.</p>	17-09-2018 to 30-06-2019	Completed	Madinat Abqaiq Irrigation Pump (MAIP) at RSTP	Abdulwahab M. Al Moallam Sons Co.
5.14	W.O.# 60306766	<p>Replace & Concrete Repair of Deteriorated Perimeter Wall Columns at Dhahran Hills School SOW is to provide supervision, manpower, materials and other required equipment and tools for replacing and repairing the existing deteriorated perimeter wall columns, foundations, main gates including related electrical activities which shall include disconnect and remove existing wall mounted lighting luminaires including conduits and wires.</p>	28-08-2021 To 31-03-2022	Ongoing	Dhahran	Abdulwahab M. Al Moallam Sons Co.
5.15	W.O.# 70296066	<p>Vertical Extension of Existing Fence at AR-Rabiyah Community, DH This Scope of Work to provide the proposed vertical extension of the existing 2.2 meters pre-cast concrete perimeter walls with sets of 800 mm high palisade extension fencing, each comprising of appropriate numbers of robust pointed vertical angular steel pales welded to angular steel base plate strips anchored to the top of the existing precast concrete perimeter walls to meet the required height of 3.0 meters security fencing at Ar-Rabiyah Housing.</p>	05-09-2021 To 06-03-2022	Ongoing	Dhahran	Abdulwahab M. Al Moallam Sons Co.
5.16	W.O.# 60306492	<p>Replace & Concrete Repair of Deteriorated Perimeter Wall Columns at Dhahran Middle School SOW is to provide supervision, manpower, materials and other required equipment and tools for replacing and repairing the existing deteriorated perimeter wall columns, foundations, main gates including related electrical activities which shall include disconnect and remove existing wall mounted lighting luminaires including conduits and wires.</p>	28-08-2021 To 31-03-2022	Ongoing	Dhahran	Abdulwahab M. Al Moallam Sons Co.
6	Construction of Vacant Area Workshop Ext-3 Inside Hail-2 Power Plant.	<p>Construction of Vacant Area Workshop Ext-3 Inside Hail-2 Power Plant: The SOW is to provide the detailed Engineering, Design, Procure, Supply all materials and equipment for Construction of New WORKSHOP in the vacant area at Ext-3 inside HAIL-2 Power Plant. The work shall include but not limited to Fabrication, Install, Test and Commission of Pre-Engineering steel structural metal building with area of (50m x 30m). Lean concrete: under footing, grade beams, grade slab and other lean concrete elements. Reinforced concrete: foundation, pedestals, columns, grade beams and other concrete elements. Structural steel framing and accessories. Panel roofing. Fire Protection: Supply & Installation of portable fire extinguishers, Supply & Installation of Automatic Fire detection and protection system for complete WORKSHOP. Configuration & interfacing with existing systems and connection/ interface with fire station building. Electrical Systems: Main power supply cable from Power Source to Power and Lighting Panel-PLP shall be provided, installed and connected by the CONTRACTOR. The CONTRACTOR shall also provide and install panel – PLP, all equipment, devices and materials for the lighting, power and grounding as required to complete the electrical systems. Proper ventilation system, sun lighting facility for working area, and air conditioning system will be provided for habitable area and I&C/electrical store room.</p>	06-06-2019 to 30-06-2022	Completed	Hail 2 Power Plant, Saudi Electricity Co.	Abdulwahab M. Al Moallam Sons Co. Saihat, 31972 Tel. (03) 856 0780 Mob. 059 132 1890

7	Lump Sum	<p>CONSTRUCTION OF MAIN CONTROL ROOM BUILDING FOR 405 MW SOLAR POWER GENERATION PLANT PROJECT AT SAKAKA.</p> <p>The main construction scope of contract includes various packages MCR Building Civil Works, Warehouse, SVG/LV/Capacitor Tank Foundation, Waterproofing works, Electrical & Lighting works and Fire Fighting systems.</p>	01-04-19 to 25-03-2020	Completed	SAKAKA, 405MWp Solar Power Generation Plant	Mahindra Susten Private Ltd. 3529 Anas Ibn Malik-Al Maqla Dist. Unit No-37, Riyadh
7.1	5300009575	<p>MCR building, Interconnecting Civil works, Warehouse & SVG Foundation Packages:</p> <p>The SOW includes Construction of complete MCR building indulging Excavation, Sub Structure, Super Structure, CMU Wall, Plastering, Painting, Tile, Ant termite, Structural Steel, Door & Windows, Sanitary wares, Plumbing and Drainage, Boundary & Fencing, Road & Pavement. Excavation (1.5m – 4.5m depth) in large types of soil by spade axes & shovel viz which consist of soft, hard murum and layers of pebbles, all isolated footings steps, plinth beams, masonry & equipment foundations, pile caps, drains, trenches, manholes, underground tanks, boundary wall etc. including shoring, strutting, dewatering also includes backfilling in trenches, carting, segregating & stacking. Filling of plinth layers not exceeding 200mm depth. Levelling and compacting by vibro roller. Proving and laying cast in situ concrete 1730 M3 for substructure (below plinth) and superstructures of grades (M10, M20, M25 & M30) with frame work for 8000m2.</p> <p>Fabrication and erection of Structural Steel like columns, beams, trusses, portals, bracings, rafters, purlins, sag rods, suspenders, supports, ladders and cage ladders, pipe racks & bridges, cable racks, monorails, lifting beams, staircases with steps, equipment supports and platforms, louvers etc. including one coat of red oxide zinc phosphate primer & two coats enamel paint of approved quality. Fabrication and installation of Door & Windows of standard and tested at CBRI or ARAI, Sanitary wares (European style) which includes Plumbing for Drainage. Supply and erection of readymade HDPE Heavy class water storage tanks including connecting necessary supply lines, delivery lines, wash water line and with manhole cover.</p> <p>Providing and laying precast interlock heavy duty concrete paver block in M:25 concrete mix of approved shade and shape over crushed Sand/stone dust bedding as per detail of profile of thickness 65-80mm of paver blocks and Curb stone with chambered edges. As a final work laying of asphalt concrete road work of 50mm compacted thickness (@ 0.04m³ per m²) required size stone aggregates, including thoroughly cleaning of the surface, screening, cleaning and pre-heating stone chips and fully pre-coating the same either using viscosity grade paving bitumen or cut-back or emulsion and thoroughly rolling with a smooth wheeled roller 8-10-ton capacity.</p>	01-04-19 to 25-03-2020	Completed	SAKAKA, 405MWp Solar Power Generation Plant	Mahindra Susten Private Ltd.
7.2	5300007374	<p>Interconnecting HVAC Works:</p> <p>Scope of work includes Supply and Installation of VRV units with multiple scroll compressors complete with inverter-based type compressors R 410 a refrigerant, cooling mode, special pre-coated fin type heat exchanger, low noise inverter-based condenser fans, microprocessor panel with sequential starting of condensing unit, coils, expansion valves, outdoor unit (12.0 HP) and fixing accessories, Cordless Remote Controls including Batteries and Wall Mounting Holste. Interconnecting copper refrigerant pipe work duly Laid on the Perforated GI Cable Trays with Cover. Piping shall be 1.0 mm Thick Hard / Soft Copper, duly insulated with 19.0 mm / 13.0 mm Nitrile Rubber Sleeves for 60mtr length. rubber insulation, Supply, Fabrication, Installation, Testing & Commissioning of following gauges of Galvanized Iron (GI) Sheet complete with splitters, supports, dampers, and turning vanes (31"-72") for 40mtr length. Supplying and laying of thermal insulation of ducts with flexible Closed Cell Elastomeric Foam and 25mm thick Acoustic Insulation Sheet with Antimicrobial Protection, 3/4" dia drain pipe etc and installation of aluminum grilles and diffusers and frame works for outdoor VRF units with vacuuming and refrigerant charging and high wall mounted drain pipes and sheet metal works.</p>	01-04-2019 to 28-02-2020	Completed	SAKAKA, 405MWp Solar Power Generation Plant	Mahindra Susten Private Ltd.

SI	Contract Number	Brief Description of Scope of Work	Contract Dates	Status (Completed/Ongoing)	Location (KSA Province & City)	Client
7.3	5300010927	AHU Installation and Integrity Test Supply and Installation of AHU unit with its pipe insulation with testing and commissioning of units, and carry out concrete work for AHU Units and Commissioning.	01-04-2019 to 08-10-2020	Completed	SAKAKA, 405MWp Solar Power Generation Plant	Mahindra Susten Private Ltd.
7.4	5300010231	Electrical Lighting & Power System for MCR Building, Warehouse & Pumps The SOW is to supply & installation of 33kv, 630amps switchgear HT panel includes aux feeder, spare feeder, bus coupler, cap bank, ACDB, LDB, PDB, UPS, HVAC panels with all accessories. *Laying of LT cables (0.65/1.1kv 4C x 4sqmm, 3C x 400sqmm, 3C x 185sqmm) with all its fittings and accessories in 110-300mm dia HDPE & PVC pipes Including proper groundings. *Laying of Communication Cables (2x2x0.5 sqmm) including Installation of cable trays (600&1000mm wide) with all its supports, fittings and accessories viz double compression type cable glands, Pre-insulated/sleeved lugs, ferrules, SS cable tags etc. *As safety supply and installation of Rubber Mat for 33kv and LT switchgear of 2mm & 5mm Thick with Testing, Commissioning & Meggering.	01-04-2019 to 29-03-2020	Completed	SAKAKA, 405MWp Solar Power Generation Plant	Mahindra Susten Private Ltd.
7.5	5300010117	MCR Waterproofing works The SOW is to supply and apply light weight foam concrete (1,015m ²) and EPDM non-reinforcement waterproofing Membrane fully adhered system (1,015m ²) and laying of polythene sheets (1,015m ²). *Supply & Apply extruded polystyrene roof insulation board (50mm thick of density 32-35kg/m ³) and layer of geotextile having 200 grams as separation & protection. *Supply and Fix Aluminium Termination Bar, 1.0mm thick, 30mm wide Supply and fix Aluminium Flashing having 2-bends with 1.0mm thickness and 60mm girth +PU sealant NITOSEAL PU40: Product of FOSROC. And dressing for pipes. Laying of Lose laid gravel (50mm thick) to cover waterproofing system.	01-04-2019 to 30-10-2019	Completed	SAKAKA, 405MWp Solar Power Generation Plant	Mahindra Susten Private Ltd.
7.6	5300007738	Electrical lighting & power system for MCR, Warehouse and Pump House Supply and installation of 33kv switch gear, and testing & commissioning, 630Amps, 20KA/1sec Rating, outdoor switchboard, and laying of LT cables, Erection of LDB panel and Sub ACDB Panel as per Manufacturer's manual under supervision of OEM engineer. Supply and Installation of complete External Electrical Works.	03-07-2019 to 28-02-2020	Completed	SAKAKA, 405MWp Solar Power Generation Plant	Mahindra Susten Private Ltd.
7.7	5300008914	Construction of Capacitor Tank foundation Construction of foundation for 50KL tank and 100KL and 135KL complete with all its levelling and excavation, compaction, moisture barrier and bituminous coating and installation of 16mm thk insert plate with 6 no's of lugs and installation of 110 mm dia UPVC pipe with its fittings.	01-10-2019 to 15-11-2019	Completed	SAKAKA, 405MWp Solar Power Generation Plant	Mahindra Susten Private Ltd.
7.8	5300007528	Construction of LV foundation Construction of LV Panel Skid Foundation of type A-C pile holes above and below ground level	01-04-2019 to 29-08-2019	Completed	SAKAKA, 405MWp Solar Power Generation Plant	Mahindra Susten Private Ltd.
7.9	5300007741	Interconnection Electrical Works Interconnection electric works for transformers, earthing and performing Erection of DSLP system on LCLM towers. And installation of cable trays. Supply and Installation of complete Interconnection Electrical Works Including testing, commissioning and meggering.	02-07-2019 to 28-10-2019	Completed	SAKAKA, 405MWp Solar Power Generation Plant	Mahindra Susten Private Ltd.
